Bill MacCormick talks to Brian Garrett, Community Development Coordinator at Alabama Community Blood Bank in Birmingham about the nationwide blood shortage which has blood banks in “emergency” mode. Garrett says that it’s due in part to school being out and people on vacation. A large percentage of blood donations come from blood drives at schools, where children over 16 can donate, and at big retailers, like Wal-Mart which has seen a slump in business because of people on vacation. Fortunately, the Red Cross and blood banks are able to share resources, but empty shelves make them nervous because blood is a perishable commodity and keeps only 50 days. A catastrophic event can wipe out supply.
